Che Doily Oregomen. SATURDAY MORNING, DEC. 25, 1880.

Time was when the chronology of Christmas paver recovered. For such boys to start in a was a verily and ably discussed. In the curver is him channereing to build a house of growing breadth and liberality of these times, the second story with no foundation (set what such discussions have been put aside, and this soum fruit props faced with dusby siding and day has been keepped by universal cousont as gineracks. With the weight above it keps the day for substration of the birth of the man breaking and taking until as the year page. of Nazareth. Every one can show that we do a solid post is set here and a firm abutment not know the day of his hit in or even with those, and at his a substantial structure is com-certainty the year; but this irrelevant matter pleted. But what a waste of time, and how has been put aside and the essential fact to be pinable and cruel it is led anch young mentate celebrated has been made the central and por- a world of hard knocks at dimerciless competimanent question. This fact illustrates then with a papar tion 1 bat makes them help-the feedleneies of the times. The less at the continencemen! has been largely circumscribed. Even carmently held differences of doctrine are There are phases of our foreign trade which saived in the interest of great fundamental deserve the attentive consideration of these

spirit of the founder of Christianity. The Our prosperity depends of our selling to her world follows at a vast distance him whose But we intentionally problibit her from sel The world knows little with certainty of the that of late there has been reported a steady life of that gentle and patient Judean youth movement of coin from Europe to the United whose doctrines have done more than faces of States. This samply means that in order to all other men to humanize mankind. Tried by pay her debts to America Great Britain mass the principles and tests of common literary make two exchanges instead of one. We will and historical criticism, the narratives, are not take British goods, and British goods unst found to gortain much which must imperfectly—he sold in other markets in order to realize the reflect him. The world is gradually, yet, conmoney balances needed in sottle Brifish debia
stantly, rising to a justor and truer conception here. Is it not apparent that this males if the
of this mighty, redeciding aprirt. Though the
interest of Great Britain to look as for as polpoints of, riew from which it shadde his life suble to other countries for the supplies disand characters and work have shifted much wants? Our present properly is confessedly
since the rise of medern liferary criticism erethe result of exporting the surplus of our sted what may without extravagance be called erops, chiefly to Great Britain. But suppose a revolution in the methods of general culture. Great Britain shou demonstrate more extensive and especially of historical inquiry, yet; this tillage and cheaper transportation in other ag-change leads only 50 a truer estimate and a ricultural countries, and rut herself in a posimore rational revolunce for him whose life and tion to discriminate against our products as we aspect of his superb humanity he is incompera- food supply upon the United States. Extension bly the most interesting figure in history. He of the railway system of Russia, and develop-ras too great for his own age to comprehend, ment of the agricultural resources of Australia was too great for his own age to comprehend, ment of the agricultural resources of Australia too great for all the following ages down to and Canada, would in a few years enable her to we to more than dimly understand and become so independent of us that the mightly is great onough for all mon to stand within be a perfectly fair and just way of teaching us rison and Alder streets, opposite is great concept our air men, to stand within the tracest and any property the compass of his mighty spirit, that our interests require reciprocal trade. The Emond," prepared by Wm. Even those who reject the system which assents We can not sell to the best advantage that the "Esmond," prepared by Wm. His divinity find in the shoet manifested all subsections what the matter is the property of the standard of the shoet manifest all subsections what the matter is quent ages with generosity, and magnetimity. with us here at the present time. We want to invited to come and on oy themprofound reverence for infinite goodness and his term goods which she has to sell. But the truth drove him to renounce the religion of his exchange is hampered, and even virtually pro-fathers simply because that religion was too hibited, by a system which oppresses us for the narrow for mankind and contemplated as its benefit of the issue the appeared one whose heart held the case is to prove it.

In him that appeared one whose heart held the case is to prove it.

Before him there were Jews.

Before is is the London Shipping and Mor-

and dreeks, and enders distinctions of rate cantile Gazatte of Nev. 1, which contains an and name. But the great wird, mankind, and article reminding America randers that Great the Monghit that lies behind it, were unknown.

Britain already has statistics to easile there. Here was a career concerning to an among poment by reprigate our premoutions of depending and so noble that the even of his proposition and goods. By these statutes power is cleared followers are able to approbend it; even given her majesty, the queen, in cases where it unto this day. It was, indeed, based in part shall appear that British ships are either on a conception impossible at this day, namely, directly or addressly subject in that the end of earthly things was at hand, but any foreign country to duties or charges of any that the end of carring timings was as as as a section, one has a surface to the lesson of kind from which to not out weachs of such the insufficiency of this life, and to true man's country are excepted, or when British teads is thoughts to that kingdom of heaven which it, not placed by such country upon as advantagement in popular in their prefension that the to imposs like or other disabilities upon the trade father of nankind cared moto for Jow thin or the country with reach the limit of the limit of the limit of the country upon the fraction. father of mankind cared more for Jew than of that country wit a ports of the United King for Gentile, or for one Jew more than another, dom. Owing to the extreme loyalty which e proferred to invite the ferezions scorn of all successive go at was devout and nonorable and powerful in his nation, and contented himself with the sympathy of the humble, the poor and the outstates which are disposed to place British trade the power exists and may to excretised whenever the power exists and may to excretised whenever the British government may see fit to resort to nial ensurinced divinity in his radiant imman it. But in fact by our policy of exclusion we form; who gathered up the inquite forces of are hurting ourselves more than we have a more than a more than the ever linked them with the natural life of man. here, whose prosperity depends on selling their

fact remains that this obsesctor is the greatest nce this mission was ended upon earth, what has been the growth of the world, the progress morning and kindling the kitchen free The of man, but a movement on a line with the duty involves an amount of self-dutal and of man with man, which keep justice continut world he waited for centuries for the invent-ally before the world as a guiding power, which tro genius with power to case over the initial lead nations to form closer ties of friendship, point in starting the distract machinery—and and knit them together by greaty and mightier there will be rejoicing in the tarmer' cottage interests. Above all this influence is the in- and the workingman's heimble home when they spiration that assects the rights of the poor and know that their benefactor has put in an apthe humble, which proclaims the dignity of man as man, which broadens and despens humanity, and which supplies the influence that ever checks the fendency to that native selfishtion as to who shall jet up first; they may both ness, that hard materalism which disregards enjoy that singular luxury of a fifteen rainutes

Apart, then, from any ecclesiastical view or theological conception, this day has a deep sign of which there is a noteh, said-paper, and the utilicance for the whole race of man. It marks kindlings already had, so that when the hope the advent of a new power in the world, the arrives the blaze is started, the water begins to power to which man, whatever variant views may be hold as to Jesus himself, owes his re-It is not our province. But it is fit on this orsecular newspaper to show from the point of view it necessarily occupies a part of the significance of this day, which, no mat-ter what objectors may say, is the brightest and holiest of the feast days of the world. Traymholizes certain simple but lefty principles, which, though few in number, have fortuuntely become the inspiration of the world:

MISTAKES IN EDUCATION. Prof. S. P. Thompson, in Popular Science against the present selection of studies for students in our schools and academies. He points out that saide from the chief elements of reading, writ-ing and arithmetic, the studies urged are ing and arithmetic, the studies urged are noter secure the reforms second. The English framed upon an exclusively collegiate type, to are a stubborn race and they can be moved by the exclusion of mechanics and of the common lucis of science or of natural history. He calls meh education a hindrance to that vast portion great measure, depend upon a shilled use of their hands for a livelihood. We are glad that the scholarly ones, those who have pessed through college, and then have found out through years of trial in unlearning what they struggled so hard to attain, believing it would be all that they would require, that their start be all that they would require, that their start was all wrong; we are glad we say to see such most. descending from their stills and demanding that no more roong men shall feel over the New Year's issue. ing that no more young men shall toil over the An important confirmatory dispatch in rela-school and told that if he will only be diligent and good he will be likely to attain high post-to-day. Readers throughout the Pacific north-

plined. At eighteen he goes out of jedool to in anticipation of the through connection with find something to de. He can conjugate a flux Northern Pacine. Great activity may be Greek with periods, or ring be able to tell the cupier of the goese that crakkel and saved flome, ments for development of the northwest. offer of the gerse that crekbel and saved Home. been stricken with paralysis at the loand

horts. This tendency towards peace good will, who would maintain that policy of production beneficence toleration, and the development and exclusion, which we misname protection of the larger humanity in man, has just begon; We want to sell to Great Britain. She is the with. And yet it was the essential chief customer for our agricultural products ling to us. Readers have doubtless observed ood upon the mind of the do against here. This is not an impossible o a strace of any other man whose only customer who can take it. And we want Cigars constantly on hand. eastern moonfacturer. This is

a career conforming to an ideal so meet by reprisals our probabilions of British

utes have nover been enforced; but foreign ast. No wonder that all men of souse and at a disadvantage are advised to true note that are hurting ourselves more than we are hurting In the name of liberalism there may be a surplus crops, and who must sell to frest Bribbigotry which will deny to this character its ain if they sell at all, ough to be able without great attributes. This is too marrow for passing the surplus crops the able without great attributes. For lot men think as they will of the blitts or imposs the exchange that we step is a hibits or impends the exchange they desire is a

One of the great hardships of life among poor matried poople, is the daily recurring necessi-ty of leaving a warm hed on a cold winter a morning and kindling the kitchen him. The principles of this mission as enumerished in such; positive discomfort of which the impressor teachings as the bermon on the mount? These nate classes, with servants and well-believed are the principles which soften the intercourse base-burners, have tut little conception. The

ance in the littly form of Theorem New Jorsey Noithir husband nor wife need now trouble the other about the verel ones all feelings and wishes and calculations but its spooze after the hour when they ought to be stirring. The Bloomfield man has clock connected with an amparatus, at one one

hoil, and, when it is not enough for the co-to be poured in, a shrill whistic sound whereat the conjugal pair r so up with tempera and ready. Civiliza ion is not a failure. If we may credit the nors reports the land loague is a law unto itself in Ireland. The peacautty are submitting their differences to

the arbitration of the league, and the lege sessions that it ronders a living for the lawyers the problem of their lives. This is one bene ficial effect that the league has had, and if it shall have put a quirtus on the everlasting agitation and bring an organized moral force to bear on the English government, the long-needed legislation on the land question may be secured. A display of force and anarchy will moral sussion much easier than by any effor

We ask attention to Tur. Ourgonian to-day as one of the best miscellaneous and general newspapers ever presented here. We may express a doubt whother it ever printed in any previous issue so great a valiety and amount of general and miscellaneous matter. A week from to-day we shall give another sheet the size of this, with the usual statistical matter of the

tion and great honors, and so his brain is west will receive with great interest these in-stuffed with something he cannot use, while his portant annuancements. The Oregon comcands and eyes are never exercised or disci- pany will hasten the fulfillment of their plans
